CASE STUDY: Hyper Rig (Joomla CMS)

**Client Overview**

**Hyper Rig™** Hyper Rig is a global provider of risk management, and data management software technologies. We enable you to create solutions that set a new standard for reliability, speed, flexibility, and scalability across your enterprise.

The company is composed of software architects and developers, experts in software technology and specialists in energy, commodities and financial trading and risk management. Our management team has years of experience in working with the world’s leading banks, energy traders and commodities traders, bringing the latest technologies, products and solutions at the right price.

**At Hyper Rig™** each person stands for excellence and innovation. We create surprise and delight in our customers - that rarest of feelings when something is better than you thought possible. We are dedicated to ensuring that trading firms have the risk information and controls they need, available when they need it most - to make confident trading decisions.

**The Challenge**

The client wanted to develop a dynamic website where they have more control without chaning the format. They didn’t want to take help of a programmer when they need to put new pages on website or change/modify content on different pages, images etc.

**The Solution**

SV developed portal using Joomla CMS which has been rated the best CMS. It give the flexibility to the client to make any changes they want to do in website in terms of content, images, creation of new pages etc. SV also gave training about how to make best use of Joomla CMS after deployment of site.

**The Results**

The site has neat and clean UI. Site is SEO friendly and has got smooth navigation. The site is performing very well in terms of functionality. The backend is working well and site has not reported any bugs after deployment. Client has used admin functionality and he finds it easy to operate.

**Client Comment**

“I thank SV for creating a flawless system. Ever since its launch it has never crashed or developed any tweaks. I would have no hesitation to recommend your services. You have been providing very good support and I see this relationship working excellent for us. Now I want SV to take care of SEO part also in some time.”
Hyper Rig

About Us

- Vision

The need of trading firms have become complex, involving end-to-end solutions that require integration of different databases and systems. Hyper Rig™ offers trading firms a powerful solution. The key problem today is not how to calculate risk, it is how to organize and manage the flow of information into and out of your risk systems. Hyper Rig™ creates a new paradigm in providing enterprise solutions for energy and commodities trading and financial institutions by integrating the management of data and the management of risk.

- How Hyper Rig™

Hyper Rig™ is a global provider of risk management, and data management software technologies. We enable you to create solutions that set a new standard for reliability, speed, flexibility, and scalability across your enterprise.
